CANNON BEACH
LOCAL WETLAND INVENTORY

KEY TO MAPS

-  Approximate Wetland Boundary:
Based on field survey with assistance from topographic maps and/or aerial photos.
-  Questionable Wetland Boundary:
Wetland is partially a mosaic, wetland identified off-site, and/or topographic and/or aerial photos not definitive.
-  Stream Corridor Location:
Based on field survey, topographic maps, and storm drainage maps.
-  Stream Corridor Questionable Location:
Topographic and/or aerial photos not definitive.
-  Sampling Point for Site X

NOTE: This map is for planning purposes. All mapped wetlands are field verified, unless access was denied, during the spring and summer of 1993. All wetland boundaries are approximate. More detailed wetland boundary delineation is generally required prior to site development near wetlands or streams. There may be unmapped wetlands that are subject to regulation.

Based on field survey with assistance from topographic maps and/or aerial photos.
- Questionable Wetland Boundary:
Wetland is partially a mosaic, wetland identified off-site, and/or topographic and/or aerial photos not definitive.
- Stream Corridor Locations:
Based on field survey, topographic maps, and storm drainage maps.
- Stream Corridor Questionable Location:
Topographic and/or aerial photos not definitive.
- Sampling Point for Site X

NOTE: This map is for planning purposes. All mapped wetlands are field verified, unless access was denied, during the spring and summer of 1993. All wetland boundaries are approximate. More detailed wetland boundary delineation is generally required prior to site development near wetlands or streams. There may be unmapped wetlands that are subject to regulation.
